

Contest Scoring And Awards

Contest Scoring

During a contest each park will count as a multiplier with a total of 25 multipliers for 25 parks. Each phone contact will count as a single point. Each digital contact, i.e. CW, RTTY, or PSK will count as two points. Contacts can be made using one mode or a combination of modes with the total score based on the number of QSO's multiplied with the total number of parks. Contest periods will be eight hours in duration starting at 1600 UTC and ending at 2400 UTC.

The exchange will consist of an operating category and the three letter alpha designator assigned to each park for Activators and the operating category and state for Chasers. One contest will be conducted each calendar year in the month of September.

Contest Categories

A – Club Station or Multi-op operating from an Indiana State Park with high power greater than 150 watts.

B – Club Station or Multi-op operating from an Indiana State Park with low power less than 150 watts.

C – Single operator from an Indiana State Park with High power.

D – Single operator from an Indiana State Park with Low power.

E – Single operator or Multi-op IN Indiana (not in a State park operating at any power level.
